ENDS SEPT 30, 2017
IN STOCK ONLY

REGULAR \$ 265.00
SALE \$ 210.00

The Onyx is a 17' single-person ladder stand featuring their revolutionary Safety System. Hunt at ease knowing that your stand is safe and secure before you leave the ground. Comfort-flex mesh seat flips up and out of the way for full use of the platform. The Onyx also has a padded armrest for added comfort and a footrest that flips back. Adjustable padded shooting rail can flip back or be removed.

The Outback is a 16' two-person ladder stand featuring their revolutionary Jaw Safety System. Hunt at ease knowing that your stand is safe and secure before you leave the ground. Comfort-flex mesh seat contours to your body. The Outback has a padded shooting rail that flips back and out of the way. Powder coated with their Weather Defender to protect against the elements and help eliminate sound.

REGULAR \$ 265.00
SALE \$ 189.00

The Apache Climber is constructed from lightweight aluminum. Featuring a nylon netting that pushes back and out of your way for full use of the foot platform. The climbing cables are made of unique 3 part design: several super strong cables are ran through aluminum extrusions, then coated with rubber for protection. The result is an extremely strong attachment that keeps its integrity while climbing and at the same time maintains flexibility for easy operation and superior tree gripping.
